Atlanta, GA | 470-815-1288 | chakib2456@gmail.com | GitHub

EDUCATION

Georgia State University, Atlanta, GA

B.A.S. Computer Game Programming (Expected Dec 2026)

A.S. Computer Science (May 2022)

Cesi.Exia, Algeria

Programmer Analyst Diploma (2018)

TECHNICAL SKILLS

Languages: Java, C#, Python, SQL

Frameworks: ASP.NET Core, React

Databases: PostgreSQL, MS SQL Server

Systems: Linux (Debian/Ubuntu), Windows, HTTP/DNS/DHCP

Tools: Git, Pandas, Visual Studio, VS Code

TECHNICAL PROJECTS

Bike Lane Infrastructure Data Analysis (Python)

- Cleaned and analyzed public datasets using Pandas to evaluate economic impact trends.
- Generated statistical insights on infrastructure growth patterns.

Restaurant Workflow Simulation (C# / .NET)

- Designed OOP-based simulation modeling order flow and kitchen processing systems.
- Implemented modular architecture to improve scalability and maintainability.

Server Infrastructure Setup (Linux VMs)

- Configured Debian, Ubuntu, and CentOS virtual machines.
- Deployed HTTP, DHCP, and DNS services and hosted a local web application.

Boulder Dash Game (Java)

- Developed a grid-based game using object-oriented design.
- Implemented collision detection and interaction systems.

EXPERIENCE

IT Auditor Intern — Deltalog (2017)

- Audited enterprise network infrastructure and validated OS/security compliance.
- Documented configuration inconsistencies and system integrity findings.

Data Integration Intern — Deltalog (2018)

- Built Python-based data pipelines integrating Odoo ERP with Moodle LMS.
- Optimized PostgreSQL queries to automate data synchronization.
